

Assembling e-Nable hands

Thierry Oquidam, e-Nable France

Required tools

Cutter

Pliers

Screwdrivers

Small hammer

Scissors

Punch

Old soldering iron

File

Heat gun

Glue gun

Deburrer

Scissors

Can replace the punch, make sure there is a pointy end

Punch

Very useful for knotting elastic
And nylon wire

Old soldering iron

Melting and ironing the plastic is often faster
And more efficient than filing

File

If you can find very thin half round ones
They are the best for the work.

Heat gun or hot water

For thermoforming

Glue gun or Neoprene glue

To glue the foam

Deburrer

Faster than file or cutter to clean
Parts edges

The usage of most of these tools is obvious,
Here are the less obvious explained.
